DEPARTMENT OF BACTERIOLOGY AND IMMUNOLOGY
THE HAMILTON KING MECK MEMORIAL LABORATORY

29. X. 51.

Dear Lederberg,

Many thanks for the volume
of papers in Microbial Genetics!
It would be fine if your example
were followed by leading workers in
such fields as nuclear chemistry
and, perhaps, the pleuro-pneumonia
group. Your introduction is
clear and helpful. I am sure
microbiologists everywhere ~~are~~ will
be grateful for the labours you
have undertaken.

Best wishes
from

C. Robinson
